

Guidelines for Plant Care

Revised 4-26-2018

- 1- Call the Parish office on the 1st day of the month to see if the church keys are available to pick up.
- 2- There are 2 keys on the set - one (silver) for the church building, the other key (brass) for the Sacristy room.
- 3- There are plastic green cans to use for watering the plants stored in the Sacristy room.
- 4- Water all plants and flower pots in the church, chapel and gathering area - 2-3 times a week or as needed. More care will be needed during Easter Season.
- 5- Make sure the Sacristy room and the church building are locked after the business hour.
- 6- Water the Cactus plants only once a month (preferable on the last day of the month).
- 7- Remind the next person on the schedule by email or phone call when you drop off the keys to the Parish office during the business hour.

- All dead leaves or small dead branches, dead cut flowers or dead blooms in pots need to be removed.
- Wash/clean the crystal vase from the wedding or funeral flowers when necessary and keep it in the storage room.

Plant Watering Schedule

January: Nancy Wenkel

February: Sandy Hug

March: Nancy

April: Lori Tierney

May: Sandy

June: Lori

July: Lori

August: Sandy

September: Carolyn Lundeen

October: Lori

November: Sandy

December: Carolyn

Thank you for helping our church plants stay healthy and beautiful. If you have any questions or problems contact Lori Tierney or Sue Valois at the Parish center.
